

# Project 5 | Advance AWS

## Project Name: Scheduling a basic job in jenkins

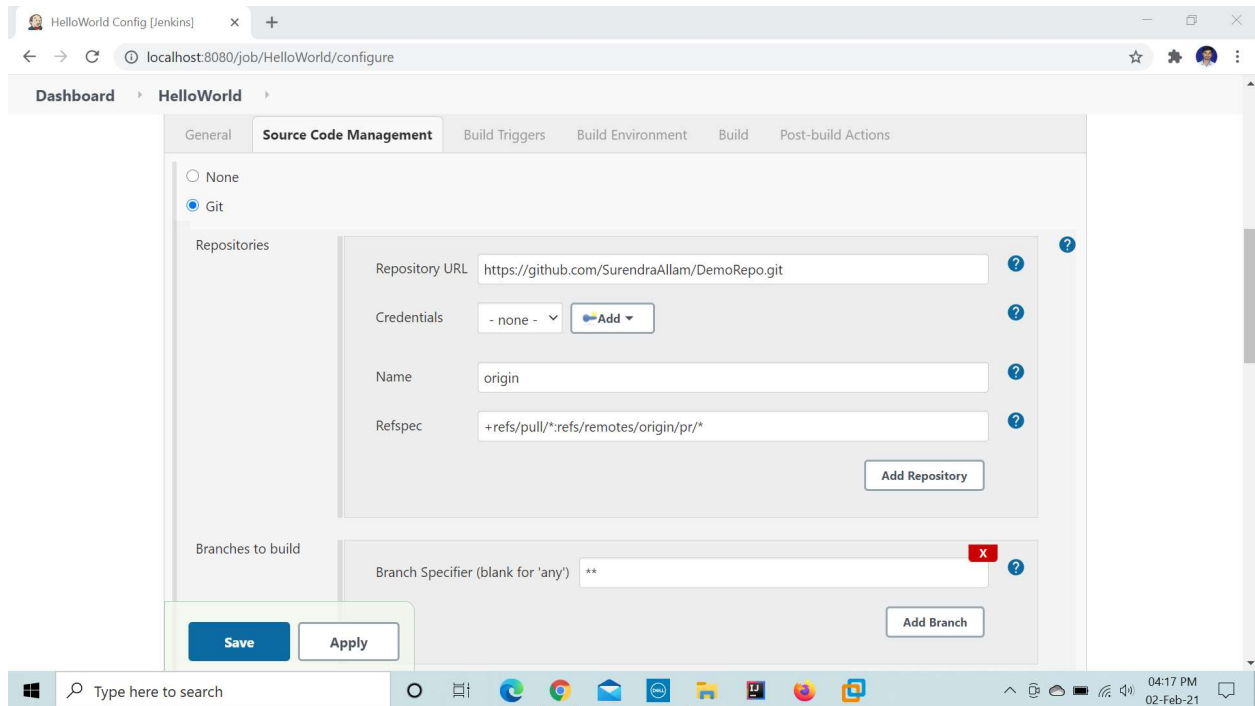

Task1: Create a free style project

ss1:jenkins home page with job list

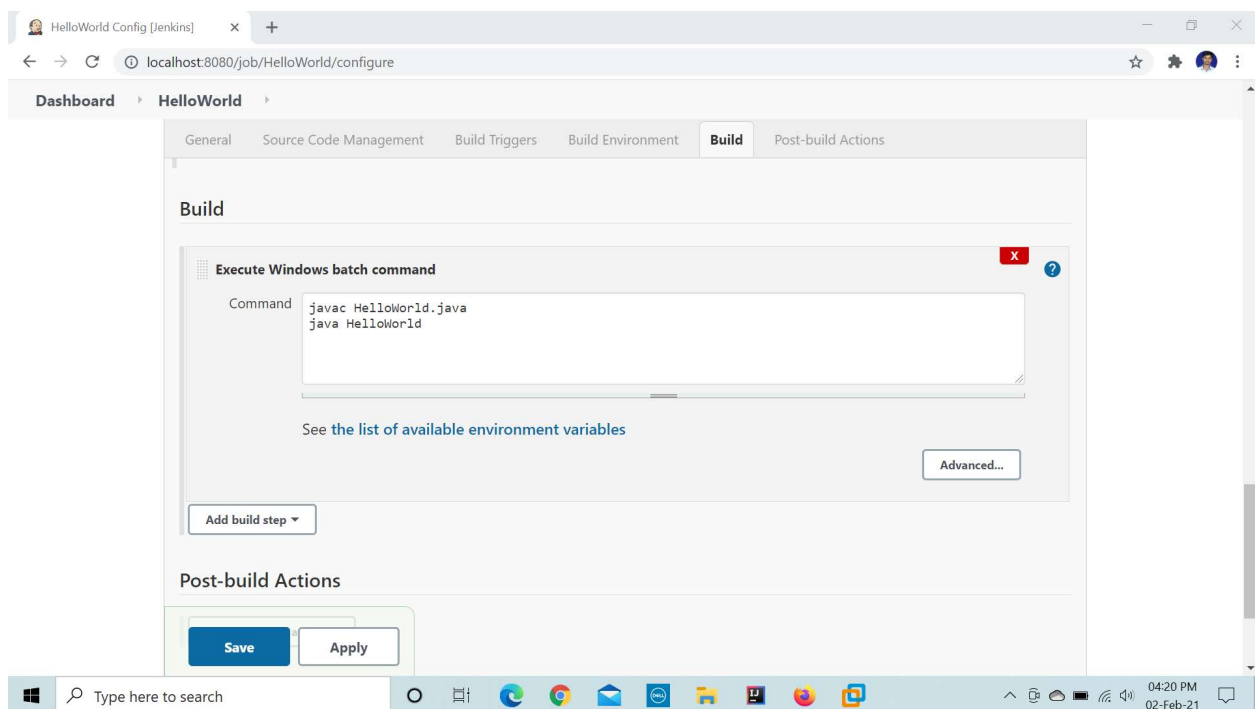

Task2: Configure git SCM

ss:git scm config tab

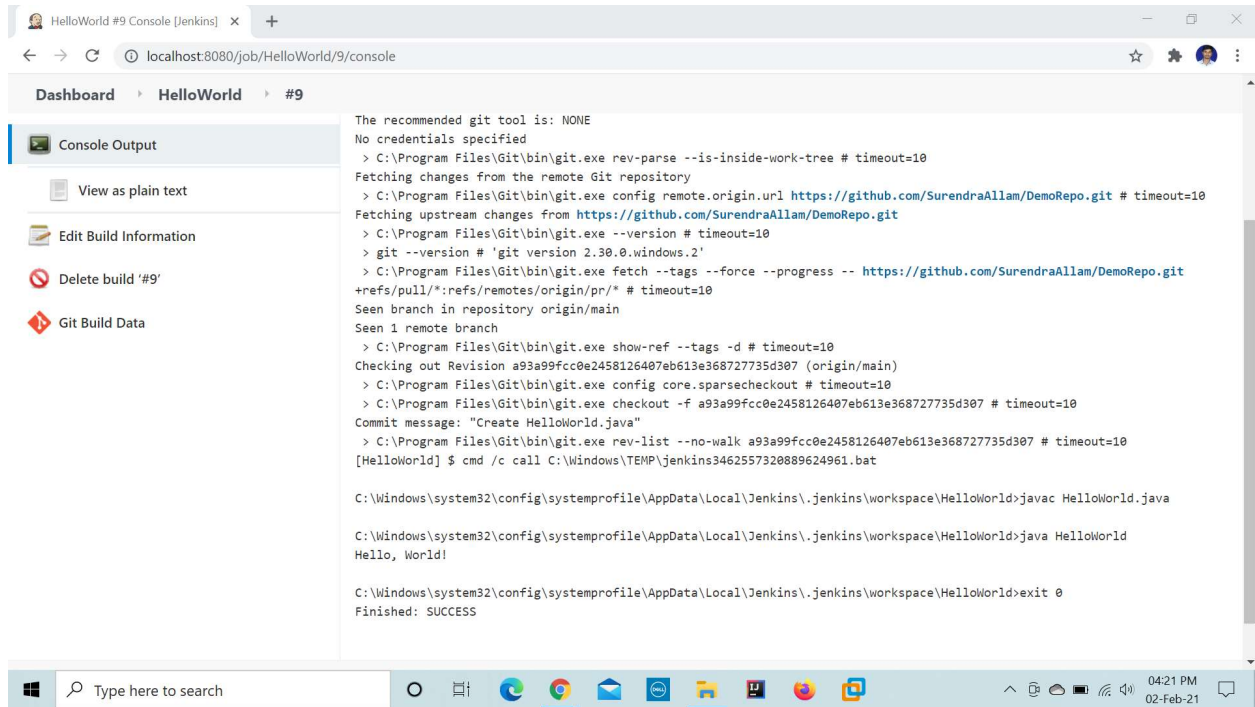

Task3: Add build step-java commands in execute windows batch commands

Ss:commands

## Task4: Run a build and show console output

ss:console output-build success

The screenshot shows the Jenkins web interface for a build named 'HelloWorld #9'. The left sidebar contains links for 'Console Output', 'View as plain text', 'Edit Build Information', 'Delete build '#9'', and 'Git Build Data'. The main area displays the console output, which shows the execution of Git commands to clone a repository, checkout a specific revision, and run a Java program. The output concludes with 'Finished: SUCCESS'.
